

DESIGNING SMALL ROOMS

Ever find yourself puzzled over how to jazz up or infuse your personality into common small rooms in your home?

You know the ones. The powder room that's purely practical. The overlooked mudroom covered in, well...mud. The foyer that's more forgettable than grand. The hustle-hub office that's strictly business. Or, the laundry room where style is hung out to dry.

Small rooms like these are often a design dilemmas. But not any more. In fact, one can transform these small rooms to really make a big statement. How, you ask?? Well here are three ways you can transform these small rooms into Show Stopper spaces.

- 1 **Dare to be BOLD with your walls:** A splash of a vibrant color or a bold wall paper pattern can transform a space from forgettable to memorable. A small area is the perfect place to experiment without overwhelming your senses. The Powder Room, Foyer, and Mudroom are perfect small spaces to be Bold and let your creativity shine. So, don't shy away from vibrant hues. A dash of bold color can turn a powder room into an eye-catching jewel. Use bold pattern wallpaper for the foyer and have your guest greeted by a gorgeous eye-catching space. Be Bold and showcases your unique style.
- 2 **Use creative flooring and floor patterns** - Make the floors in your small room a canvas for expressing your unique style. A creative style flooring adds the WOW factor to any small space. For the Foyer, lay tiles in herringbone or checkered patterns to create a grand look. In the Mudroom and Laundry Room, select stylish pattern tiles with bold colors to add pop. In the Mud Room and Foyer, add an area rug that is durable and easy to maintain for color, pattern, and texture. So, be creative with the flooring, add patterns, color, and texture to express your unique style.
- 3 **Creative Inspiring Task Spaces** - The task spaces in your home should be more than just functional. They should inspire you to tackle any chore with gusto. Add soft tones of color to your laundry room and office to make both inviting areas. Add creating seating with color and flair. For example, a nice chair in a bold color for the Office, or a bench with a lovely pattern cushion for the Mudroom. Embrace natural elements like wood to make the space warm and inviting. Add wood shelves in the Mudroom or Laundry Room for storage. Use wood furniture in the Office. Be creative transforming those small task spaces into inspiring welcoming rooms..

These are just three ways you can turn those challenging small rooms into captivating experiences. Turn your small room into an aesthetically delightful retreat. There's no limit to how imaginative you can get - show case your creativity and design your small room with style.
